

**South Plains Telephone Cooperative, Inc.  
Availability of Video Accessibility Options**

Universal, large-button remotes can be purchased at retailers such as Best Buy, Walmart, Target, Amazon, Walgreens, CVS and a multitude of other retailers of your choice.

The STB's provided by SPTC use standard-based IR for remote control. If you wish to use an RF remote, a dongle must be plugged into one of the vacant USB ports on the STB to pair with the remote.

If you have questions, concerns, or complaints about our video accessibility options, please contact customer service at 806/763-2301.
